| <b>Semester</b>         | <b>: Second</b>  |
| <b>Course Title</b>     | <b>: PROGRAMMING IN C</b>  |
| <b>Course Code</b>      | <b>: 312303</b>  |

**I. RATIONALE**

'C' programming language helps to build a strong foundation for computer programming. This course will help to solve beginner level problems such as mathematical operations, string processing, data structure and data structure related processing, with the help of basic concepts, control flow structures, and principles of C. This course is basically designed to create a base to develop foundation skills of procedure - oriented programming.

**II. INDUSTRY / EMPLOYER EXPECTED OUTCOME**

The aim of this course is to help the students to attain the following industry identified outcome through various teaching learning experiences: Develop 'C' programs that address issues with processing strings, mathematic operations, and data structures.

**III. COURSE LEVEL LEARNING OUTCOMES (COS)**

Students will be able to achieve & demonstrate the following COs on completion of course based learning

- CO1 - Develop C program using input - output functions and arithmetic expressions
- CO2 - Develop C program involving branching and looping statements
- CO3 - Implement Arrays and structures using C programs
- CO4 - Develop C program using user-defined functions
- CO5 - Write C program using pointer

**IV. TEACHING-LEARNING & ASSESSMENT SCHEME**

**PROGRAMMING IN C****Course Code : 312303****Total IKS Hrs for Sem. : 0 Hrs**

Abbreviations: CL- Classroom Learning , TL- Tutorial Learning, LL-Laboratory Learning, SLH-Self Learning Hours, NLH-Notional Learning Hours, FA - Formative Assessment, SA -Summative assessment, IKS - Indian Knowledge System, SLA - Self Learning Assessment

Legends: @ Internal Assessment, # External Assessment, \*# On Line Examination , @\$ Internal Online Examination

Note :

1. FA-TH represents average of two class tests of 30 marks each conducted during the semester.
2. If candidate is not securing minimum passing marks in FA-PR of any course then the candidate shall be declared as "Detained" in that semester.
3. If candidate is not securing minimum passing marks in SLA of any course then the candidate shall be declared as fail and will have to repeat and resubmit SLA work.
4. Notional Learning hours for the semester are (CL+LL+TL+SL)hrs.\* 15 Weeks
5. 1 credit is equivalent to 30 Notional hrs.
6. \* Self learning hours shall not be reflected in the Time Table.
7. \* Self learning includes micro project / assignment / other activities.

**V. THEORY LEARNING OUTCOMES AND ALIGNED COURSE CONTENT**

| Sr.No | Theory Learning Outcomes (TLO's)aligned to CO's.   | Learning content mapped with Theory Learning Outcomes (TLO's) and CO's.   | Suggested Learning Pedagogies.                                      |
|-------|--|---|---|
| 1     | <p>TLO 1.1 Write algorithm for given problem statement.</p> <p>TLO 1.2 Identify the given building blocks of a C Program.</p> <p>TLO 1.3 Use basic constructs like constants, variables, data types for developing C program.</p> <p>TLO 1.4 Write C programs using printf() and scanf() functions.</p> <p>TLO 1.5 Write C programs using arithmetic operators, bitwise operators.</p> | <p><b>Unit - I Basics of 'C' Programming</b></p> <p>1.1 Fundamentals of algorithms: Notion of algorithm, Notations used for assignment statements and basic control structures.</p> <p>1.2 Introduction to 'C': General structure of 'C' program, Header file, 'main ()' function.</p> <p>1.3 Fundamental constructs of 'C': Character set, tokens, keywords, Identifiers, Constants - number constants, character constants, string constants, Variables. Data types in 'C': Declaring variables, data type conversion.</p> <p>1.4 Basic Input and Output functions: input and output statements using printf(), scanf() functions.</p> <p>1.5 Assignments and expressions: simple assignment statements, arithmetic operators, shift operators, bitwise operators, sizeof operator.</p> | <p>Chalk-Board<br/>Demonstration<br/>Hands-on</p>                   |
| 2     | <p>TLO 2.1 Write a 'C' program using decision making statements.</p> <p>TLO 2.2 Use loop statements in C program to solve iterative problems.</p> <p>TLO 2.3 Use appropriate statement to alter the program flow in the loop.</p>  | <p><b>Unit - II Control structures</b></p> <p>2.1 Conditional statements: Relational operators, logical operators, if statement, if-else statements, nested if-else statements, if-else ladder, switch statement.</p> <p>2.2 Looping statements : 2.1 while loop, do... while loop, for loop.</p> <p>2.3 Branching Statements: goto statement, use of 'break' and 'continue' statements.</p>  | <p>Chalk-Board<br/>Demonstration<br/>Presentations<br/>Hands-on</p> |

| LLO 14.1 Write the syntax for statement.<br>LLO 14.2 Write C code for solving given problem using for loop.         | 14           | Implement C programs using for loop statement (e.g.- Write a C Program to print numbers from 1 to 100)  | 2                     | CO1<br>CO2          |
| LLO 15.1 Write syntax for while and do ... while loop<br>LLO 15.2 Write syntax for 'for' loop                       | 15           | * Print various patterns using loops. e.g. - Write C Program to print following or similar pattern<br><br>*<br>* *<br>* * *<br>* * * *  | 2                     | CO2                 |
| LLO 16.1 Declare and initialize the Array.<br>LLO 16.2 Write C program for implementation of one dimensional array. | 16           | * Implement C programs using One Dimensional Array. (e.g.-Write C program to input 5 numbers using array and display sum of it)   | 2                     | CO2<br>CO3          |

**PROGRAMMING IN C****Course Code : 312303**

| <b>Practical / Tutorial / Laboratory Learning Outcome (LLO)</b>   | <b>Sr No</b> | <b>Laboratory Experiment / Practical Titles / Tutorial Titles</b>  | <b>Number of hrs.</b> | <b>Relevant COs</b> |
|---|--------------|--|-----------------------|---------------------|
| LLO 17.1 Declare and initialize two dimensional Array.<br>LLO 17.2 Write C program for implementation of two dimensional array.   | 17           | * Implement C programs using Two Dimensional Array. (e.g.-Write C program to calculate addition of two 3X3 matrices.)  | 4                     | CO3                 |
| LLO 18.1 Declare character array as Strings in C<br>LLO 18.2 Write C programs for print string operations without using string handling functions   | 18           | * Write C program to perform following operations without using standard string functions. i) Calculate Length of given string<br>ii) Print reverse of given string. | 2                     | CO3                 |
| LLO 19.1 Declare ,define and access structure variables   | 19           | Implement 'Structure' in C ( e.g. - Add and Subtract complex numbers using structure)  | 4                     | CO3                 |
| LLO 20.1 Write C programs using Array of Structure  | 20           | * Implement ' Array of Structure' in C (e.g.-Accept and Display 10 Employee information using structure)   | 2                     | CO3                 |
| LLO 21.1 Use built-in library functions in C programs   | 21           | * Develop C program using in-built mathematical and string functions.  | 2                     | CO4                 |
| LLO 22.1 Write C programs using user defined functions  | 22           | * Write C program to demonstrate User defined Functions  | 4                     | CO4                 |
| LLO 23.1 Write Recursive functions in C.  | 23           | Implement recursive functions in C program.  | 2                     | CO4                 |
| LLO 24.1 Declare and initialize pointer variables<br>LLO 24.2 Write C program to access variables using pointers.   | 24           | * Write C Program to print addresses and values of variables using Pointer. (e.g.- Write C program to access and display address of variables.)                      | 2                     | CO5                 |
| LLO 25.1 Perform arithmetic operations using pointers.  | 25           | * Implement C Programs to perform arithmetic operations using Pointer.   | 2                     | CO5                 |
| <b>Note : Out of above suggestive LLOs -</b> <ul style="list-style-type: none"> <li>• '*' Marked Practicals (LLOs) Are mandatory.</li> <li>• Minimum 80% of above list of lab experiment are to be performed.</li> <li>• Judicial mix of LLOs are to be performed to achieve desired outcomes.</li> </ul> |              |  |                       |                     |

**VII. SUGGESTED MICRO PROJECT / ASSIGNMENT/ ACTIVITIES FOR SPECIFIC LEARNING / SKILLS DEVELOPMENT (SELF LEARNING)****Self learning**

- 1.Complete any one course related to Programming in C on Infosys Springboard
- 2.Develop C language code for relevant topics suggested by the teacher

**Assignment**

- 1.Solve an assignment on any relevant topic given by the teacher

**Micro project**

**PROGRAMMING IN C****Course Code : 312303**

- The micro project has to be Industry Application Based, Internet-based, Workshop-based, Laboratory-based or Field-based as suggested by Teacher
- Prepare a simple calculator to perform mathematical operations. Accept values and operations to be performed from user. Allow only numeric values else show appropriate messages to user.
  - Prepare menu driven program for Invoice management system. Accept user inputs and generate receipt and calculate amounts as per purchased items.
  - Develop employee leave management system to display leave related information of employee.
  - Develop food menu card for restaurant. Display food items. Accept food menu, quantity and generate bill for the same.
  - Develop a menu-driven program to perform matrix operations - matrix addition, matrix multiplication, transpose of matrix .

**VIII. LABORATORY EQUIPMENT / INSTRUMENTS / TOOLS / SOFTWARE REQUIRED**

| Sr.No | Equipment Name with Broad Specifications                           | Relevant LLO Number |
|-------|--|---------------------|
| 1     | 1 Computer system - (Any computer system with basic configuration) | All                 |
| 2     | 2 'C' Compiler (Any)   | All                 |

**IX. SUGGESTED WEIGHTAGE TO LEARNING EFFORTS & ASSESSMENT PURPOSE (Specification Table)**

| Sr.No              | Unit | Unit Title                | Aligned COs | Learning Hours | R-Level   | U-Level   | A-Level   | Total Marks |
|--------------------|------|---------------------------|-------------|----------------|-----------|-----------|-----------|-------------|

| <b>Grand Total</b> |      |                           |             | <b>60</b>      | <b>16</b> | <b>16</b> | <b>38</b> | <b>70</b>   |

**X. ASSESSMENT METHODOLOGIES/TOOLS****Formative assessment (Assessment for Learning)**

- Continuous assessment based on process and product related performance indicators
- Each practical will be assessed considering  
60% weightage to process  
40% weightage to product
- A continuous assessment based term work

**Summative Assessment (Assessment of Learning)**

- End semester examination, Lab performance, Viva voce

**XI. SUGGESTED COS - POS MATRIX FORM**
